**“CHALLENGES are what make life interesting, OVERCOMING them is what makes life MEANINGFUL.”**

Dear Children,

It gives me immense pleasure and exultation of heart to observe and realize how our patience has finally borne fruits and things have started falling into place. Slowly but gradually the EDUCATIONAL ECOSYSTEM too is gaining NORMALCY. Now we are not living in FEAR but we are living in FAITH.

At this juncture when your OFFLINE ANNUAL EXAMINATION (Classes IX & XI from 15 February 2022) is at the corner, I want to take the opportunity and wish you the very Best of Luck. I must confess that it was a matter of delirious joy for me observing how we all crossed the hurdles and challenges of these unprecedented times of GLOBAL PANDEMIC, personifying the DICTUM “TOGETHER WE CAN AND WE WILL”.

Examination-anxiety is a UNIVERSAL PHENOMENON, common to all age-groups and all times, but with proper Exam Management Skills viz. Study-Plan/Strategy and Time-management this challenge can easily be braved. Remember always that everyone has 24 hours a day, but it is how you utilize it that makes all the difference. DPS Ranchi is a Stronghold of Education and Protection for its students. Rest assured that your teachers are always there to cushion the blows for you. I am proud to assert that for each STUDENT the Teaching fraternity of DPS Ranchi ensures all the requisite support, guidance, counsel, direction, assistance, cooperation and superintendence. The only thing that YOU have to do is to FOCUS ON YOUR GOAL. DON'T LOOK IN ANY OTHER DIRECTION BUT AHEAD.”

Despite all, COMPLACENCY and LAXITY in attitude should not be exhibited in adhering to the SOPs of COVID 19. The mind and body are not separate. What affects one affects the other. Accordingly and necessarily take good care of your physical health so that mentally you may focus more on studies.

**“FOR SUCCESS ATTITUDE IS AS IMPORTANT AS ABILITY.”**

With abundant blessings and love.

Dr RAM SINGH
