When I learned that my seventy one year old mother was playing scrabble against herself, I knew I had to do something. "Who is playing?" I asked one day when I saw a half finished game on the table. "My right hand versus my left". "Excuse me" I said. " Well your father doesn't play now and I want to keep my mind sharp." An admirable pursuit, but I questioned whether my mother's solitary version of scrabble would achieve that goal. My husband suggested we give her a computer to play against. I wasn't sure my mother was ready for a cyber scrabble as it had taken fifteen years to persuade her to buy a microwave. Nevertheless we packed up our old PC, complete with scrabble and word-processing programmes and delivered it to my parent's home. And so began my mother's adventure in the world of computers.

It also marked the beginning of an unusual teaching assignment for me. I've taught children and adults of all ages, but never thought I would be teaching my mother to do anything. Despite the look of horror on her face when she first saw our gift, my mother was eager to get started. She sat mesmerised on the screen lit up and the various icons presented themselves. Slowly, but surely my mother caught on, making notes in a little spiral book. I wondered how she'd fair without me. But thereafter, she only spoke of her game on the computer to me. She even forgot to ask her stock question, "What did you have for supper?" It was no longer on the agenda. Instead she talked about RAM, ROM and CPU terms spilled out effortlessly from her mouth. My mother had acquired a new mother tongue.

After a lifetime of being her child, I was finally the one with knowledge to share with my mum. But even now, I realise she continues to teach me. I'm learning that no matter how old you are, a willing spirit is capable of anything.

परिश्रम उन्नति का द्वार है। मनुष्य परिश्रम के सहारे ही जंगली अवस्था से वर्तमान विकसित अवस्था तक पहुँचा है। उसी के सहारे उसने अन्न उपजाया, वस्त्र बनाए, घर, मकान, भवन, बाँध, पुल, सड़कें बनाईं। तकनीक का विकास किया, जिसके सहारे आज यह जगमगाती सभ्यता चल रही है। परिश्रम केवल शरीर की क्रियाओं का ही नाम नहीं है। मन तथा बुद्धि से किया गया परिश्रम भी परिश्रम कहलाता है। हर श्रम में बुद्धि तथा विवेक का पूरा योग रहता है। परिश्रम का सबसे बड़ा लाभ यह है कि इससे लक्ष्य प्राप्त करने में सहायता मिलती है। परिश्रम करने वाला मनुष्य सदा सुखी रहता है। उसे मन-ही-मन प्रसन्नता रहती है कि उसने जो भी भोगा, उसके बदले उसने कुछ कर्म भी किया।

परिश्रमी व्यक्ति का जीवन स्वाभिमान से पूर्ण होता है, वह अपने भाग्य का निर्माता होता है। उसमें आत्म-विश्वास होता है। परिश्रमी व्यक्ति किसी भी संकट को बहादुरी से झेलता है तथा उससे संघर्ष करता है। परिश्रम कामधेनु है जिससे मनुष्य की सब इच्छाएँ पूरी हो सकती हैं। मनुष्यों को मरते दम तक परिश्रम का साथ नहीं छोड़ना चाहिए। जो परिश्रम से इनकार करता है, वह जीवन में पिछड़ जाता है।

परोपकार का शाब्दिक अर्थ है – दूसरों का भला। दूसरों की भलाई के बारे में सोचना तथा उसके लिए कार्य करना महान गुण है। यदि सभी अपने गुणों को अपनी मुट्टियों में कैद कर लें तो यह सृष्टि – चक्र पल भर के लिए न चले।

वृक्ष अपने लिए नहीं, औरों के लिए फल धारण करते हैं। नदियाँ भी अपना जल स्वयं नहीं पीतीं। परोपकारी मनुष्य 'संपत्ति का संचय भी औरों के लिए करते हैं। मानव जीवन भी एक-दूसरे के सहयोग पर निर्भर है। परोपकार का सुख लौकिक नहीं, अलौकिक है। जब व्यक्ति निःस्वार्थ भाव से किसी घायल की सेवा करता है तो उस क्षण वह मनुष्य नहीं है। अपने प्रियजनों के लिए कुछ करना अलग बात है। परंतु अपने-पराए सबके लिए कर्म करना सच्चा परोपकार है। भारत में परोपकारी महापुरुषों की कमी नहीं है। यहाँ दधीचि जैसे ऋषि हुए जिन्होंने अपनी जाति के लिए अपने शरीर की हड्डियाँ दान में दे दीं। बुद्ध, महावीर, अशोक, गाँधी, अरविंद जैसे महापुरुषों के जीवन परोपकार के कारण ही महान बन सके हैं। परोपकारी व्यक्ति सदा प्रसन्न, निर्मल और हँसमुख रहता है। वह पूजा के योग्य हो जाता है।

कहते हैं कि मन के हारे हार है, मन के जीते जीत अर्थात् यदि आप आत्म विश्वास से भरपूर हैं तो आपकी जीत निश्चित है जरा सा भी मन विचलित हुआ नहीं कि आपको हार ने जकड़ लिया। इसीलिए मनुष्य में आत्मविश्वास का होना अत्यंत आवश्यक है। कितनी भी कठिन परिस्थिति क्यों न हो, यदि आप में आत्म विश्वास है तो आप बिना विचलित हुए अपने कार्य को सहजता से पूरा कर लेंगे। मिसाइल मैन के नाम से विख्यात और भारत के पूर्व राष्ट्रपति डॉ० ए०पी०जे० अब्दुल कलाम का बचपन काफ़ी गरीबी में बीता। अपनी पढ़ाई पूरी करने के लिए उन्होंने अपने गृह नगर रामेश्वरम में अखबार तक बेचना पड़ा। एयरोनॉटिकल इंजीनियरिंग में विशेषज्ञता के साथ प्रसिद्धि प्राप्त करने वाले डॉ० कलाम एक फाइटर पायलट बनना चाहते थे, किन्तु उनका यह सपना साकार नहीं हो पाया, क्योंकि वे वायु सेना में उपलब्ध आठ स्थानों में से नौवें स्थान पर आए। लेकिन उन्होंने अपने इस सपने की असफलता और पारिवारिक मजबूरियों को अपने जीवन की बाधा नहीं बनने दिया। यदि वे अपने जीवन में इस असफलता से निराश होकर सफल होने की कोशिश नहीं करते तो आज पूरी दुनिया एक असाधारण रूप से प्रतिभाशाली वैज्ञानिक की हैरत अंग्रेज कामयाबियों से वंचित रह जाती। एक अन्य प्रसंग श्री हनुमान जी का भी ले सकते हैं कि रावण की लंका में प्रवेश कर, मुख्य भवनों को ध्वस्त कर रावण के सामने वे जिस निडरता के साथ उपस्थित हुए, वह सब केवल उनका आत्मविश्वास ही था। सच है कि आत्मविश्वास मानव जीवन में सफलता की सबसे बड़ी सीढ़ी है। यह एक ऐसा अस्त्र है, जिसके बल पर दुनिया के किसी भी लक्ष्य को प्राप्त किया जा सकता है। आत्मविश्वास से आत्मबल प्राप्त होता है और यही मनुष्य को लोहे से भी अधिक मजबूत बनाता है। अतः हमारे जीवन में कितनी भी कठिन परिस्थितियाँ और मुसीबतें क्यों ना घिर जाएँ, हमें आत्मविश्वास नहीं छोड़ना चाहिए।

(iii) मानव जीवन में सफलता की सीढ़ी क्या है?

(क) विशेषज्ञता (ख) वैज्ञानिकता (ग) आत्मविश्वास (घ) आत्मबल

(iv) आत्मबल किससे प्राप्त होता है?

Section - C

- Q.3. Read the source given below and answer the questions that follows: (1+1+1+1=4)

Socialist were against private property, and saw it as the root of all social ills of the time. Why? Individuals owned the property that gave employment but the propertied were concerned only with personal gain and not with the welfare of those who made the property productive. So if society as a whole rather than single individuals controlled property, more attention would be paid to collective social interests. Socialists wanted this change and campaigned for it.

Socialists had different visions of the future. Some believed in the idea of cooperatives. Robert Owen (1771-1858), a leading English manufacturer, sought to build a cooperative community called New Harmony in Indiana (USA). Other socialists felt that cooperatives could not be built on a wide scale only through individual initiative; they demanded that governments encourage cooperatives. In France, for instance, Louis Blanc (1813-1882) wanted the government to encourage cooperatives and replace capitalist enterprises. These cooperatives were to be associations of people who produced goods together and divided the profits according to the work done by members.

Karl Marx (1818-1883) and Friedrich Engels (1820-1895) added other ideas to this body of arguments. Marx argued that industrial society was 'capitalist'. Capitalists owned the capital invested in factories and the profit of capitalists was produced by workers. The conditions of workers could not improve as long as this profit was accumulated by private capitalists. Workers had to overthrow capitalism and the rule of private property. Marx believed that to free themselves from capitalist exploitation, workers had to construct a radically socialist society where all property was socially controlled. This would be a communist society.

- Q.14. Read the source given below and answer the questions that follows: (1+1+1+1=4)

The Constitution does not reflect the views of its members alone. It expresses a broad consensus of its time. Many countries of the world have had to rewrite their Constitution afresh because the basic rules were not acceptable to all major social groups or political parties. In some other countries, the Constitution exists as a mere piece of paper. No one actually follows it. The experience of our Constitution is different. Over the last half a century, several groups have questioned some provisions of the Constitution. But no large social groups or political party has ever questioned the legitimacy of the Constitution itself. This is an unusual achievement for any Constitution.

The second reason for accepting the Constitution is that the Constituent Assembly represented the people of India. There was no Universal Adult Franchise at that time. So the Constituent Assembly could not have been chosen directly by all the people of India. It was elected mainly by the members of the existing Provincial Legislatures that we mentioned above. This ensured a fair geographical share of members from all the regions of the country. The Assembly was dominated by the Indian National Congress, the party that led India's freedom struggle. But the Congress itself included a variety of political groups and opinions. The Assembly had many members who did not agree with the Congress. In social terms too, the Assembly represented members from different language groups, Castes, classes, religions and occupations. Even if the Constituent Assembly was elected by Universal Adult Franchise, its composition would not have been very different.

(14.1) The Constitution always reflects

- (a) the views of the members of Drafting committee
- (b) a broad consensus of the time when it is written
- (c) views of the democrats
- (d) Both (a) and (b)

- (a) In some other countries, the Constitution exists as a mere piece of paper
- (b) In India the legitimacy of the constitution is never questioned

- (d) Both (a) and (b)

(14.3) How were the members of the Constituent Assembly chosen?

- (a) By the Universal Adult Franchise
- (b) By the Prime Minister
- (c) By the members of the existing Provincial Legislatures
- (d) None of the above

	Hund an der Haltstelle gefunden! Als ich heute Morgen zur Schule gegangen bin, habe ich einen Hund an der Bushaltstelle gesehen. Er war mit einer Leine festgebunden. Er hat vor Kälte gezittert und richtig geweint. „Sein Herrchen kommt bestimmt gleich zurück“, habe ich gedacht und bin in den Bus eingestiegen. Als ich dann aus der Schule zurückgekommen bin, war der Hund immer noch da. Der Arme Hund! Bei der Kälte! Ohne Futter! Sein Herrchen hat ihn immer noch nicht abgeholt! Ich habe nicht gewusst, was ich machen sollte. Ich konnte doch den Hund nicht mitnehmen! Ich mag Hunde sehr gern. Ich liebe überhaupt alle Tiere. Aber ich kann den Hund nicht nach Haus nehmen. Meine kleine Schwester ist nämlich gegen Tierhaare allergisch. Wir haben deshalb schon unsere Katze und meinen Hund weggegeben.	

	Dann habe ich den Hund gestreichelt. Er war sehr zutraulich und hat sich gefreuet. Da habe ich ihm den Rest von meinem Pausenbrot gegeben und er ist vor Freunde an mir hochgesprungen. Sein Herrchen hat ihn bestimmt vergessen. Da habe ich dem Hund einen Namen gegeben. „Komm Bingo“, habe ich gesagt, „ich bringe dich jetzt ins Tierheim“.

	TEXT - C	
	<p>Zwillinge sind nie allein</p> <p>Als Babys haben Stefan und Chris immer zu selben Zeit die gleichen Krankheiten gehabt. Später machte es ihnen Spaß, das Gleiche anzuziehen und die gleiche Frisur zu haben. Doch jetzt gibt es Probleme, weil beiden dasselbe Mädchen gefällt. Stefan und Chris sind Brüder und sie sind am selben Tag geboren, also Zwillinge. Sie sind gern zusammen. Trotzdem geht es ihnen auf die Nerven, Zwillinge zu sein. Es ist fruchtbar, wenn man immer als die gleiche Person gilt oder wenn man immer wieder mit dem Bruder verwechselt wird.</p> <p>Stefan findet es praktisch, dass er Chris' Kleidung tragen kann. Gut ist auch, dass er mit Chris immer über alles sprechen kann und dass Chris auch sofort alles versteht. Oft brauchen sie schon nicht mehr zu sagen, denn Chris weiß immer was Stefan denkt. Dennoch ist der Bruder nicht der beste Freund.</p>	

	Sie haben zwar dieselben Hobbys und hören dieselbe Musik, aber in der Schule interessieren sich Stefan und Chris für verschiedene Fächer. Stefan mag alles, was mit Paragraphen zu tun hat und möchte später Jura studieren. Doch Chris beschäftigt sich lieber mit Physik und Chemie. Er möchte gern Lebensmittelchemiker werden.
